About

I'm a frontend developer who focuses on accessible, responsive interfaces. I work with HTML, CSS, JavaScript — and enjoy learning new tools.

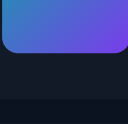

Experience

- Built 10+ websites and small apps for clients and personal projects.
- Familiar with Git, responsive design, and performance optimisation.

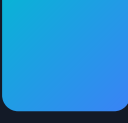

Education

- B.Sc. in Computer Science — Example University (2020–2023)
- Certifications in Frontend Development and UI/UX Design

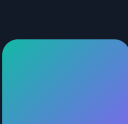

Projects

Portfolio Website
A responsive single-page portfolio (this project).

Task Manager App
A tiny JS app for tracking tasks with local storage.

Weather App
A small weather dashboard using OpenWeatherMap API and fetch.

Blog

Why I Love Minimal UI

Exploring the power of simplicity in interface design and how it improves usability.

Top Tools I Use in Frontend Dev

A quick dive into my preferred dev tools, including VS Code, Figma, and GitHub.

Skills

HTML

CSS

JavaScript

Responsive Design

Git

Testimonials
